

Jørgen Skov Jensen,  
Infection Preparedness; Bacteria, Parasites, and Fungi, Statens Serum Institut, Copenhagen,  
Denmark

Dr Jensen is a consultant physician at SSI where he is heading the Research Unit for Reproductive Microbiology. His current focus is on *M. genitalium* antimicrobial susceptibility aiming to improve treatment. He has contributed to the development of molecular assays for resistance detection by characterizing *M. genitalium* strains from patients with treatment failure. He has been part of the European STI Guidelines Project Editorial Board since 2006 and is the lead author on the *M. genitalium* guideline.
